SIGNAGE INSTALLATION INSTRUCTIONS

1. Installation surface must be CLEAN and DUST FREE.
2. Place a small "dot" of silicone in each corner of the sign. The "dot" should be 1/4" to 3/8" in diameter.
3. Remove paper backing from foam tape.
4. Position sign in desired location and apply enough pressure to ensure the foam tape sticks to the mounting surface. The foam tape will hold the sign in place until the silicone adhesive cures.
5. If removal is required, slide a putty knife gently behind the sign and "cut" through the silicone adhesive and the foam tape.

GUEST ROOM NUMBER INSTALLATION

The preferred location for ADA compliancy is on the wall adjacent to the latch side of the door followed by nearest adjacent wall. A sign should NOT be mounted on the door except as a last resort. Mount 60" to the centerline of the sign.
