**DESIGN & FREE WAYFINDING**

see last page of brochure for Free Wayfinding details  
As your site requires, Graphics Systems can design additional signage to complement the Park Inn Graphics Package. Custom design is available.

Because a signage system is a sizable investment, it is best to have a well thought-out plan for implementation. Therefore, in addition to providing you with an excellent product, Graphics Systems can also provide the necessary services to program a good wayfinding system.

As consultants, we will give you a clear, objective analysis of your facility's "overall" needs from the viewpoint of a visitor. Through a series of interviews and independent studies of the traffic flow patterns, we provide the most comprehensive wayfinding planning available in the industry, complete with message schedules and location plans.

**INSTALLATION**

We have installation teams available to integrate and install your new "graphics package" into your specific environment or space.

**OUR COMPANY**

Graphics Systems' unique combination of designers, account executives and skilled fabricators form one of the nation's few "total package" architectural signage companies. We have built our business on the added value of our complete package of services—concept to completion—followed by reliable service.

## SIGNAGE INSTALLATION INSTRUCTIONS

1. Installation surface must be CLEAN and DUST FREE.
2. Place a small "dot" of silicone in each corner of the sign. The "dot" should be 1/4" to 3/8" in diameter.
3. Remove paper backing from foam tape.
4. Position sign in desired location and apply enough pressure to ensure the foam tape sticks to the mounting surface. The foam tape will hold the sign in place until the silicone adhesive cures.
5. If removal is required, slide a putty knife gently behind the sign and "cut" through the silicone adhesive and the foam tape.

### GUEST ROOM NUMBER INSTALLATION

The preferred location for ADA compliancy is on the wall adjacent to the latch side of the door followed by nearest adjacent wall. A sign should NOT be mounted on the door except as a last resort. Mount 60" to the centerline of the sign.
